## Eunos Roadster MX-5 Mk1 Mk2 Mk2.5 Mk3 Mk3.5

Which model have you got? We make no distinctions between the MX-5 and the Eunos Roadster. We know they are the same car! All parts for Mk1 models will fit any Mk1 or Eunos Roadster unless otherwise stated. The easiest way to tell which car you have is by the headlamps. Mk1 models all have "pop up" headlamps, whilst all Mk2 models have "fixed" headlamps. Mk3 models from 2005 onwards also have fixed headlamps, so the best way to check is with the chassis number. Mk1's from 1989 to 1998 will start with NA, Mk2's from 1998>2005 start with NB, and Mk3's from 2005 on start with NC. We refer to the Mk2 2001 on facelift model as the Mk2.5, and the new Mk3 2009 on facelift as the Mk3.5.

Will it fit? Parts marked all models, fit all models. Those marked Mk1/Mk2/2.5 are different for each model but available for all. Those marked just Mk1, Mk2 Mk3 or Mk3.5 are only suitable for the model indicated.

We believe in the quality of every part we sell and even offer a  
**30 day Money Back Guarantee**

If for any reason you are not completely satisfied with anything you have purchased from us, return it, in its original condition and packaging, for a full refund (excluding shipping costs).

### Stainless Steel Brake Lines, Mk3

Here's your chance to replace those mushy old rubber brake hoses, with some beautiful stainless steel braided ones. Offering better performance and safety, you will find no other kit on the market that is made to such a high quality as this one.

### Hel Stainless Steel Brake Line Set

Incredibly high quality, fully stainless steel brake line set available in red, black or silver. To our knowledge this is the only set where all the fittings, including the distribution block, are made entirely from stainless steel. Unlike standard hoses, these don't expand when pressure is applied, therefore eliminating the "spongy" feeling you can sometimes get under braking.
