CAR
SHADES

Presenting **MX5parts** sister business

CAR SHADES

Own a second vehicle as well as your beloved MX-5? Then you might want to know about our sister business.

Car Shades are tailored fit, vehicle specific car sunshades - manufactured in the UK and distributed around the world.

Not only do Car Shades give the stylish look of tinted windows, but they offer a flexible solution for providing your passengers with a more comfortable journey.

Car Shades reduce the amount of sunlight entering into the car and can still be fitted even when lowering your windows.

People travelling with children or pets in the rear seats are those who really benefit from the Car Shades product, but the tailored nature of the shades also makes them a very cool styling accessory too.

Unlike window tints, Car Shades can be clipped in and taken out again within a matter of minutes giving you the freedom to choose when you wish to use them.

Being a supplier to a number of leading car manufacturer brands, you can be assured of the quality on offer by the Car Shades product.

Whilst you obviously won't find an MX-5 in the Car Shades range, you will find listings available for over 600 vehicle applications and that list is growing all of the time.

To learn more about this amazing product brought to you by the same people that bring you MX5parts, head to our website where you can check out our video and view the full application range.
